

Hello,

As most of you know, downtown Redmond is getting a significant make over and our office will soon be affected more directly.

Starting on February 23, 2017 the City Of Redmond will be working on the sidewalk on the West and South side of our building (if you are standing on Redmond Way looking at our office, it is the portion of the sidewalk to the left of our front door). To access our office, patients will need to walk through the small alley on the East side of our building (if you are looking at our building from the parking lot the alley is on the left).

Thank you for your understanding. We apologize for this inconvenience.

Sincerely

Essence Of Dentistry
